SIZES — HOW TO ORDER "COURTSHIP" RINGS

When ordering (1) if you know your ring size, state it in your order; or (2) cut a cardboard five inches long in a tapered shape (illustrated at right). Take a ring that fits you correctly and place it over narrow end of cardboard; do not force. Where ring stops draw lines at both sides of ring (see illustration). Send marked cardboard strip with your order.

New economical booths which completely eliminate the use of equipment. These booths are not only exceptionally profitable but can be operated by one operator and are absolutely fool-proof. All of the booth assortments can be purchased in sizes to meet your requirements. The object of the game is as follows: A set of 1,000-2,000-3,000 or 10,000 tickets (each of which is serial numbered) is sold at 10c per ticket. All of the prizes are exhibited in the booth and a card listing the winning numbers is also shown. When a winning number is drawn the player is given his prize immediately. All of these assortments cost you one half of your net gross. This nets your booth 100% on your investment. All prizes are guaranteed first quality—and are brand new.

Each of the above assortments includes a complete set of tickets in a Jar. Merchandise is listed as to winning numbers—READY TO USE. Each ticket is folded and sealed so that no one can see what number they are choosing. Most people will purchase 5 to 10 tickets. Each deal has its own color tape and own serial number. No leakage—the winning tickets must be saved—and must correspond to the items already won.
